This press release contains forward-looking statements based on current management expectations. Numerous factors, including those disclosed herein, those related to healthcare industry trends and those detailed in our filings with the Securities and Exchange Commission (as set forth in *Item 2-Forward Looking Statements and Risk Factors* in our Form 10-Q

for the quarter ended March 31, 2025 and in *Item 1A-Risk Factors*, and *Item 7-Forward-Looking Statements and Risk Factors*, in our Form 10-K for the year ended December 31, 2024), may cause the results to differ materially from those anticipated in the forward-looking statements. These statements are subject to risks and uncertainties and therefore actual results may differ materially. Readers should not place undue reliance on such forward-looking statements which reflect management's view only as of the date hereof. We undertake no obligation to revise or update any forward-looking statements, or to make any other forward-looking statements, whether as a result of new information, future events or otherwise.

Many of the factors that could affect our future results are beyond our control or ability to predict, including, but not limited to:

- A significant portion of our revenues are derived from federal and state government programs including the Medicare and Medicaid programs. Payments from these programs are subject to statutory and regulatory changes, administrative rulings, interpretations and determinations, requirements for utilization review, and federal and state funding restrictions. Changes to these programs could materially affect program payments which could materially impact our results of operations. In addition, we receive substantial reimbursement from multiple states in connection with various supplemental Medicaid payment programs. Failure to renew these programs beyond their scheduled termination dates, failure of the public hospitals to provide the necessary Inter-Governmental Transfers for the states' share of the Medicaid disproportionate share hospital programs, and the failure of our hospitals that currently receive supplemental Medicaid revenues to qualify for future funds under these programs could cause our actual results of operations for the year ended December 31, 2025 to differ materially from our 2025 revised operating results forecast.
- Legislation adopted on July 4, 2025, attaches work and community service requirements to eligibility for Medicaid benefits that will have the effect of limiting Medicaid enrollment and expenditures. That legislation also places limits on provider fees used to increase federal Medicaid funding to states and eliminates certain exchange premium tax credits beyond 2025. As these provisions become effective over the next several years, they may be expected to reduce our revenues and likely increase the level of uncompensated care provided by our facilities.
- The increase in interest rates during the past few years has increased our interest expense significantly thereby reducing our free cash flow. As such, although interest rates have moderated more recently, the effects of increased borrowing rates have adversely impacted our results of operations, financial condition and cash flows. We cannot predict future changes to interest rates, however, significant increases in our borrowing rates could have a material unfavorable impact on our future results of operations and our ability to access the capital markets on favorable terms.
- Changes in laws or policies governing the terms of foreign trade, and in particular, increased trade restrictions, tariffs or taxes on imports from where our products or materials are made (either directly or through our suppliers) could have an impact on our competitive position, business operations and financial results.
- The outcome of known and unknown litigation, liabilities and other claims asserted against us and/or our subsidiaries, including, but not limited to, the matters related to Cumberland Hospital for Children and Adolescents, located in New Kent, Virginia, as previously disclosed in various filings including, most recently, our Form 10-Q for the quarterly period ended March 31, 2025. Although we can make no assurances regarding the ultimate outcome of these matters, or what damages will ultimately be awarded, the final resolution of these matters could have a material adverse effect on the Company.

We believe that adjusted net income attributable to UHS, adjusted net income attributable to UHS per diluted share, EBITDA net of NCI and Adjusted EBITDA net of NCI, which are non-GAAP financial measures ("GAAP" is Generally Accepted Accounting Principles in the United States of America), are helpful to our investors as measures of our operating performance. In addition, we believe that, when applicable, comparing and discussing our financial results based on these measures, as calculated, is helpful to our investors since it neutralizes the effect of material items impacting our net income attributable to UHS, such as, changes in the market value of shares of certain equity securities, the impact of ASU 2016-09, net of the impact of executive compensation limitations pursuant to IRC section 162(m), and other potential material items that are nonrecurring or non-operational in nature including, but not limited to, impairments of goodwill, long-lived and intangible assets, reserves for various matters including settlements, legal judgments and lawsuits, costs related to extinguishment of debt, gains/losses on sales of assets and businesses, potential impacts of non-ordinary acquisitions, divestitures, joint ventures or other strategic transactions, and other amounts that may be reflected in the current or prior year financial statements that relate to prior periods. To obtain a complete understanding of our financial performance these measures should be examined in connection with net income attributable to UHS, as determined in accordance with GAAP, and as presented in the condensed consolidated financial statements and notes thereto in this report or in our other filings with the Securities and Exchange Commission including our Report on Form 10-Q for the quarter ended March 31, 2025 and our Report on Form 10-K for the year ended December 31, 2024. Since the items included or excluded from these measures are significant components in understanding and assessing financial performance under GAAP, these measures should not be considered to be alternatives to net income as a measure of our operating performance or profitability. Since these measures, as presented, are not determined in accordance with GAAP and are thus susceptible to varying calculations, they may not be comparable to other similarly titled measures of other companies. Investors are encouraged to use GAAP measures when evaluating our financial performance.

We believe that providing our results on a "Same Facility" basis (which is a non-GAAP measure), which includes the operating results for facilities and businesses operated in both the current year and prior year periods, is helpful to our investors as a measure of our operating performance. Our Same Facility results also neutralize (if applicable), the effect of material items that are nonrecurring or non-operational in nature including items such as, but not limited to, reserves for various matters, settlements, legal judgments and lawsuits, cost related to extinguishment of debt, gains/losses on sales of assets and businesses, impairments of goodwill, long-lived and intangible assets and other amounts that may be reflected in the current or prior year financial statements that relate to prior periods. Our Same Facility basis results exclude from net revenues and other operating expenses, provider tax assessments incurred in each period. However, these provider tax assessments are included in net revenues and other operating expenses as reflected in the table under *All Behavioral Health Care Services*. The provider tax assessments had no impact on the income before income taxes as reflected on the above tables since the amounts offset between net revenues and other operating expenses. To obtain a complete understanding of our financial performance, the Same Facility results should be examined in connection with our net income as determined in accordance with GAAP and as presented herein and the condensed consolidated financial statements and notes thereto as contained in our Form 10-K for the year ended December 31, 2024 and our Form 10-Q for the quarter ended March 31, 2025.

Prior year amounts related to certain facilities previously included in our Behavioral Health Care Services' results have been reclassified into our Acute Care Hospital Services' results as of May 1, 2024 to conform with current year presentation.

The *All Behavioral Health Care Services* table summarizes the results of operations for all our behavioral health care facilities during the periods presented. These amounts include: (i) our behavioral health results on a same facility basis, as indicated above; (ii) the impact of provider tax assessments which increased net revenues and other operating expenses but had no impact on income before income taxes, and; (iii) certain other amounts including the results of facilities acquired or opened during the last twelve months.

(a) Adjusted net income attributable to UHS/per diluted share exclude the following items because we do not believe we can forecast these items with sufficient accuracy. Such items include: the impact of future items, if applicable, that are nonrecurring or non-operational in nature including items such as pre-tax unrealized gains/losses resulting from changes in the market value of shares of certain equity securities, the impact of ASU 2016-09, and other potential material items including, but not limited to, impairments of goodwill, long-lived and intangible assets, reserves for various matters including settlements, legal judgments and lawsuits, costs related to extinguishment of debt, gains/losses on sales of assets and businesses, potential impacts of non-ordinary acquisitions, divestitures, joint ventures or other strategic transactions, other amounts that may be reflected in the current or prior year financial statements that relate to prior periods, and the impact of share repurchases that differ from our forecasted assumptions. Adjusted net income attributable to UHS/per diluted share is also subject to certain conditions including those as set forth in *General Information, Forward-Looking Statements and Risk Factors and Non-GAAP Financial Measures*.

(b) Adjusted EBITDA net of NCI is a non-GAAP financial measure and should not be considered a measure of financial performance under GAAP. We believe Adjusted EBITDA net of NCI is helpful to our investors as a measure of operating performance.
