Funds from operations (“FFO”), is a widely recognized measure of REIT performance. Although FFO is a non-GAAP (generally accepted accounting principles) financial measure, the Trust believes that information regarding FFO is helpful to shareholders and potential investors. The Trust computes FFO in accordance with standards established by the National Association of Real Estate Investment Trusts (“NAREIT”), which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than the Trust. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered to be an alternative to net income determined in accordance with GAAP, as an indication of the Trust’s financial performance or to be an alternative to cash flow from operating activities determined in accordance with GAAP, as a measure of the Trust’s liquidity, nor is it indicative of funds available for the Trust’s cash needs, including its ability to make cash distributions to shareholders.
